

Grand Station Entertainment

TEKS-Aligned Field Trip Experience: Bowling

Program Highlights

- Real-world math through scoring and data tracking
- Hands-on science: force, motion, and energy
- Teamwork, strategy, and decision-making skills

TEKS Alignment

Mathematics: Data analysis, operations, and problem-solving (K–8)

Science: Force, motion, and energy concepts (K–8)

CTE/Readiness: Critical thinking, teamwork, and real-world application

Purpose of Trip (Teacher-Ready)

Students will participate in a bowling-based learning experience to apply mathematical concepts such as scoring and data analysis while exploring scientific principles of force and motion. This activity supports TEKS through real-world application.

Grand Station Entertainment makes it easy for educators to connect fun with curriculum through TEKS-aligned experiences.
